

Week 7 in-class exercise/homework

- (1) Break up into groups of equal size.
- (2) Each group should complete their assigned problem(s):
 - a. Group A – Chapter 17: #19.
 - b. Group B – Chapter 17: #20, #21.
 - c. Group C – Chapter 17: #31.
- (3) Go to "whitlockschluter.zoology.ubc.ca/data/" to download your data.
- (4) Work together with your group to decide how to approach each problem using R.
- (5) Consult "whitlockschluter.zoology.ubc.ca/r-code/" for some simple instructions regarding the R code you will need.
- (6) Prepare a short presentation describing your problem, your approach and the answers to all parts of the question.
- (7) Present your solution to the class.
